TEST PLAN – SAUCEDEMO WEBSITE

Version: 1.0
Prepared By: Arpan Sircar
Reviewed By: QA Lead
Application Under Test: SauceDemo (Website)
Testing Type: Manual Functional Testing

---

1. Introduction

This Test Plan defines the testing objectives, scope, environment setup, approach, deliverables, roles, and risks for validating the SauceDemo website. SauceDemo is a demonstration e-commerce application with core flows such as login, product browsing, cart management, and checkout.

---

2. Test Objectives

- Validate the main functional workflows of the SauceDemo website.
- Identify issues in UI, validation, workflow navigation, and data handling.
- Ensure correct behaviour for positive and negative scenarios.
- Confirm the checkout process works end-to-end.

---

3. Scope of Testing

3.1 In Scope

- Login page functionality
- Product listing page
- Sorting functionality
- Add/Remove products to/from cart
- Shopping cart page
- Checkout Step 1 (User info)
- Checkout Step 2 (Order overview)
- Order completion page
- Logout flow
- Error message validation
- UI validation

- Error handling validation (invalid login, blank fields)
- Basic responsive behaviour (desktop window resize)
- Exploratory testing
- User-based behavior testing for all provided demo users
- (standard_user, locked_out_user, problem_user, performance_glitch_user, error_user, visual_user).

3.2 Out of Scope

- Cross-browser testing
- Mobile device testing
- API/Backend validation
- Performance/Load testing
- Security testing
- Automation testing
- Database validation

---

4. Test Approach

4.1 Functional Testing

- Positive scenarios
- Negative scenarios
- Mandatory fields
- Invalid data handling
- Error messages
- Verification of user-specific behavior variations based on different demo user types.

4.2 UI/UX Testing

- Label and button alignment
- Font and colour consistency
- Product tile layout
- Image visibility

4.3 Regression Testing

Performed after fixes to ensure no new issues appear.

4.4 Exploratory Testing

Helps identify issues beyond scripted cases.

4.5 Pass / Fail Criteria

Pass :-

Expected behaviour matches actual behaviour.

Fail :-

Any deviation in functionality, workflow or UI behaviour.

---

5. Test Environment

5.1 Operating System

- Windows 11 Pro
- Version: 10.0.26200
- OS Build: 26200
- System Architecture: 64-bit
- UEFI Mode
- Secure Boot: Enabled
- Virtualization: Enabled
- Time Zone: India Standard Time
- Locale: India

5.2 Hardware Configuration

- HP ProBook 440 G9
- Intel Core i5-1235U (12th Gen, 10 Cores, 12 Threads, 1.30 GHz)
- Installed RAM: 16 GB
- Available RAM: ~7.5 GB
- BIOS Version: HP U85 Ver. 01.16.00 (19-08-2025)

5.3 Browser Configuration

- Browser Used :- **Google Chrome Version 142.0.7444.176 (Official Build) (64-bit)**

5.4 Network Configuration

- Broadband/Wi-Fi
- Default Windows Firewall
- No Proxy
- No VPN

5.5 Display Configuration

- Screen Resolution: **1920 × 1080 (Full HD)**

5.6 Tools Used

- **Microsoft Excel** (Test Cases, Test Scenarios, Bug Report, RTM)
- **Microsoft Word** (Test Plan, Summary Report)
- **Snipping Tool** (Screenshots)
- **Chrome DevTools** (Inspection Tools)

5.7 Application Under Test (AUT)

- **URL:** https://www.saucedemo.com
- **Environment:** Live Demo
- **User Credentials:**
  - Username: standard_user
  - Password: secret_sauce

---

6. Test Data Strategy

- Valid data for positive flows
- Invalid/blank/special characters for negative flows
- Simple, realistic user info for checkout fields
- No backend data manipulation required

---

7. Entry Criteria

- Application reachable
- Working login credentials
- Test Plan approved
- Sanity check passed

---

8. Exit Criteria

- All test cases executed
- All major defects resolved
- No Blocker/Critical defects open

- Test Summary Report completed

---

9. Deliverables

- Test Plan
- High-Level Requirements
- Test Scenarios
- Test Cases
- Bug Report
- RTM
- Execution Log
- Summary Report
- Defect Metrics

---

10. Roles & Responsibilities

Role	Name	Responsibility
Manual Tester	Kalp Shah	Prepare test assets, execute tests, log defects, retest
QA Lead	Assigned	Review and approve documents

---

11. Severity & Priority Definitions

Severity

- **Blocker:** Testing cannot continue
- **Critical:** Core functionality broken
- **High:** Major functionality impacted
- **Medium:** Partial functionality issue
- **Low:** UI / cosmetic issue

Priority

- **P1:** Immediate fix
- **P2:** Fix after P1
- **P3:** Fix in later versions

---

12. Risks & Mitigation

Risk	Impact	Mitigation
Only Chrome tested	Medium	Document limitation in Summary Report
UI changes mid-testing	Medium	Update test cases promptly
No official requirements	High	Derive HLR from live application

13. References

- SauceDemo Website
- Observed functionality from live UI
- Chrome DevTools inspection
- Internal QA standards

---

14. Conclusion

This Test Plan provides a complete, structured, and professional approach for testing the SauceDemo website with manual testing practices. It establishes clear scope, environment details, responsibilities, and criteria for evaluating the quality of the application.
